Stannah

Stannah. Enjoy outdoor living

Life is better when you have the energy to do the things you want to do, like enjoying a visit from your friends or tending to your garden. Our experience has taught us that the sooner a stairlift is installed, the sooner you will be able to start appreciating the things you love doing.

Stannah, a company trusted for over 150 years

We are a family-run company and have been for five generations. The current managing directors are the great, great grandchildren of Joseph Stannah, who started the company in the 1860s. His engineering principles and strong family values run as true today as they always have.

The stairlift that fits your life and home, whatever the weather

The 320 from Stannah is the perfect solution for either a flight of outside stairs, or for just a few steps down to your garden. The 320 outdoor stairlift was designed to work in a variety of weather conditions; sunshine, rain or snow. And, to cope with ever changing weather conditions, it has been tested to ensure it operates between -10°C and $+40^{\circ}\text{C}$, making it suitable for most countries. Operating the 320 couldn't be easier. Lightly touch the joystick and glide effortlessly up or down the stairs. At the top of the stairs, simply press down on one of the swivel levers to turn the seat and face the upward direction, where you can easily and safely get on and off the seat. Add a removable immobiliser key for additional security, as well as a protective cover to shield it from dirt when not in use, and you have your perfect stairlift to enjoy outdoor living.

Neat, elegant and tidy

Our elegant straight rail and fold-flat chair design leaves plenty of space around your staircase for other stair-users.

Sleek and smooth

Safely seated with the easy-to-use seatbelt on, a gentle touch of the joystick is all it takes to climb your stairs.

“500,000 people worldwide have chosen a Stannah stairlift to help them keep their independence”

“My outdoor stairlift couldn’t be easier to use thanks to the simple and light-touch joystick”

320. Covering all the elements

We value your comfort and safety more than anything else. This is why the 320 comes with a host of thoughtful touches and features that make it a joy to use and give you complete peace-of-mind.

Below are the benefits and features common to the Stannah 320 for outdoor straight stairs.

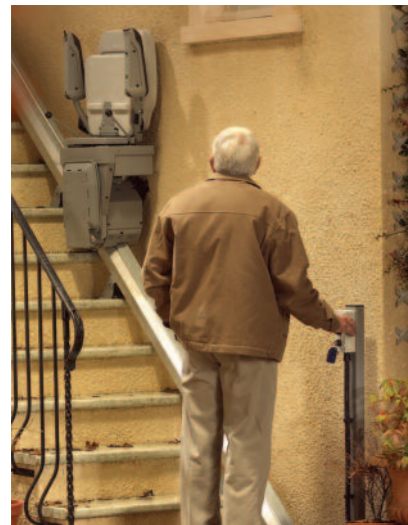

- 1. Directional controls**
Can be mounted on either arm, the joystick controls the stairlift direction.
- 2. Seatbelt**
A simple rucksack style seatbelt.
- 3. Swivel levers**
Light-touch levers on either side of the stairlift operate the swivel seat.
- 4. Foldaway seat**
The seat, armrests and footrest can be folded away for safety when not in use.
- 5. Safety edges**
Safety sensors around the footrest and carriage automatically detect any obstruction on your stairs, bringing your stairlift to a safe and gentle stop.
- 6. LED light**
Indicates that the 320 is on.
- 7. On/off switch**
- 8. Keyswitch**
If required, the keyswitch can be used to completely immobilize the stairlift.

Due to the conditions in which it will be used, the 320 can only be installed into solid concrete, solid wood or metal stairs.

320. Your step-by-step guide

We believe a stairlift should go beyond the functional. To us, that means making it beautifully simple to operate.

1. Using the optional call station, you can send and receive your stairlift to either end of the stairs.

2. Once unfolded, make yourself comfortable in the seat. Fasten the seatbelt for additional security.

3. A gentle movement of the joystick is all it takes to make your stairlift glide effortlessly upstairs or downstairs.

4. When you arrive at the top of the stairs, you can swivel your stairlift around so you can get off safely.

5. When you are not using your stairlift, you can leave it in its swivelled position to act as a barrier.

6. Your stairlift can be folded flat when it's not in use, giving more space on your stairs for other stair-users.

"My seatbelt really puts my mind at ease when I'm using my stairlift"
